

HLP THE THREE MAIN REQUISITIES

- **Workforce Development** – Trained and upskilled team that actively supports and promotes healthy living behaviour in the local community and thereby improving the health and wellbeing of the people it serves. At least one team member has to become a qualified Healthy Living Pharmacy Champion by undertaking the Royal Society for Public Health (RSPH) Level 2 Award ‘Understanding Health Improvement’ (accessed at: [RSPH Level 2 Award in Understanding Health Improvement](#)) and another team member who has undertaken HLP leadership training (accessed at: CPPE [Leadership for Healthy Living Pharmacy](#)).
- **Engagement** – Connect with local stakeholders, such as general practice and other healthcare professionals, community services, local authorities and the public.
- **Environment** – Premises with a dedicated health promotion area that enables the promotion of healthy living interventions and campaigns.
